RE: Status of Matagorda Bay Mitigation Trust Projects

Marine Debris Removal on Matagorda Island (Contract #063):

The goal of this project is to remove marine debris and hazardous materials that have accumulated on the Matagorda Island Gulf shoreline. The CBBEP and ANWR have scheduled a site visit to Matagorda Island for April 12, 2024. The purpose of the site visit is to assess and identify the marine debris on the Island. The CBBEP will then develop a request for proposals for debris removal services which will include the locations of the debris based on the assessment that will be conducted in April 2024.
